## Aims and Scope

The International Journal of Energy and Environment (IJEE) is the official journal of the International Energy and Environment Foundation providing an international forum for the fields of Energy and Environment. The journal aims to provide the most complete and reliable source of information on current developments in the field. The emphasis will be on publishing quality articles rapidly and making them freely available to researchers worldwide. The journal has a distinguished editorial board with extensive academic qualifications, ensuring that the journal will maintain high academic standards and has a broad international coverage. There are no page charges and all articles are indexed by the major indexing media therefore providing the maximum exposure to the articles. The scope of the journal includes the following:

### Energy

- Fuel cells.
- Hydrogen energy.
- Solar energy conversion and photovoltaics.
- Wind energy.
- Hydro energy.
- Micro- and nano-energy systems and technologies.
- Biofuels and alternatives.
- Hybrid / integrated energy systems.
- Energy conversion, conservation and management.
- Energy efficient buildings.
- Energy storage.
- Energy and sustainable development.
- Advanced visualization techniques, virtual environments and prototyping.

### Environment

- Energy and environmental impact.
- Assessment of risks from water, soil and air pollution; effective and viable remedies.
- Evaluation and management of environmental risk and safety.
- Environment and sustainable development.
- Environmental education and training.
- Analysis of contaminants.
- Contaminant source characterization, transport and deposition.
- Multi-media sampling / monitoring (air, soil, water, sediment).
- Quality assurance / control.
- Legislative issues and guidelines.
- Remediation.
- Climate change.

### A note to authors

#### *Submission of articles*

Articles submitted to the Review should be original contributions and should not be under consideration for any other publication at the same time. The submitting author is responsible for obtaining agreement of all co-authors as well as any sponsors' required consent before submitting a paper. Responsibility for the content of a paper lays on the Authors and not on the Editors or the Publisher.

Formatting instructions can be found on author guidelines and must be strictly followed or else your paper will not be published. The paper template represents the basic guidelines and desired layout final manuscript of International Journal of Energy and Environment (IJEE). It's compulsory to use the template for the preparation of your paper. Full instructions can be found on the web site (<http://www.IJEE.IEEFoundation.org>).

### Your Submitted Article

- Your article will be peer-reviewed and published very fast.
- Your biography will appear at the end of your article.
- Your article will be published free of charge. Free use of colour where this enhances the article.
- Your article can be read by potentially millions of readers, which is incomparable to publishing in a traditional subscription journal. All interested readers can read, download, and/or print your article at no cost!
- Your article will obtain more citations.
- Moreover, all articles are indexed by the major indexing media therefore providing the maximum exposure to the articles.

## Contents

<b>Prediction of deformation and hygro-thermal stresses distribution in PEM fuel cell vehicle using three-dimensional CFD model.</b>	485-504
<i>Maheer A.R. Sadiq Al-Baghdadi</i>	
<b>Exergoeconomic performance optimization of an endoreversible intercooled regenerative Brayton combined heat and power plant coupled to variable-temperature heat reservoirs.</b>	505-520
<i>Bo Yang, Lingen Chen, Fengrui Sun</i>	
<b>Integration of energy and environmental systems in wastewater treatment plants.</b>	521-530
<i>Suzanna Long, Elizabeth Cudney</i>	
<b>Investigation of thermal effect on exterior wall surface of building material at urban city area.</b>	531-540
<i>Mohd Fadhil Md Din, Hazlini Dzinun, M. Ponraj, Shreeshivadasan Chelliapan, Zainura Zainun Noor, Dilshah Remaz, Kenzo Iwao</i>	
<b>Life cycle assessment (LCA) of an energy recovery plant in the olive oil industries.</b>	541-552
<i>Francesca Intini, Silvana Kühtz, Gianluca Rospi</i>	
<b>An overview of the EU Member States support schemes for the promotion of renewable energy sources.</b>	553-566
<i>Andreas Poullikkas, George Kourtis, Ioannis Hadjipaschalis</i>	
<b>Protecting water resources from pollution in the Lake Badovc.</b>	567-576
<i>Sabri Avdullahi, Islam Fejza, Ahmet Tmava</i>	
<b>Fuel economy improvement based on a many-gear shifting strategy.</b>	577-590
<i>B. Mashadi, R. Baghaei Lakeh</i>	
<b>Combined natural convection and mass transfer effects on unsteady flow past an infinite vertical porous plate embedded in a porous medium with heat source.</b>	591-604
<i>S. S. Das, R. K. Tripathy, R. K. Padhy, M. Sahu</i>	
<b>Hybrid wind-PV grid connected power station case study: Al Tafila, Jordan.</b>	605-616
<i>Yousif El-Tous, Saleh Al-Battat, Sandro Abdel Hafith</i>	
<b>Effect of flow field on open channel flow properties using numerical investigation and experimental comparison.</b>	617-628
<i>I. Khazaei, M. Mohammadi</i>	
<b>Performance and emission characteristics of diesel engine with COME-Triacetin additive blends as fuel.</b>	629-638
<i>P. Venkateswara Rao, B. V. Appa Rao</i>	

**Transformerless microinverter for photovoltaic systems.**
